Are you using the *optimized* one-page checkout on BigCommerce?
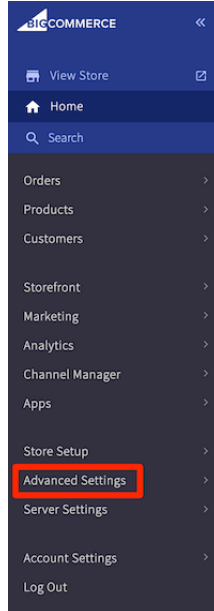

No further action required. You are all set!

Are you using the *non-optimized* one-page checkout on BigCommerce?
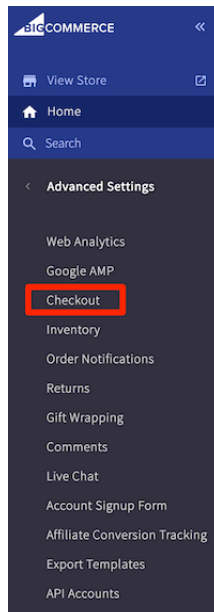

You have two options to load the *Address Validator* app:

1. switch to *optimized one-page checkout*
2. insert code snippet

Option 1: Switch to *optimized one-page checkout*

Step 1: Login to BigCommerce admin panel and select *Advanced Settings* menu item on the left.

Step 2: Select *Checkout* menu item on the left.

Step 3: Select *Optimized one-page checkout* option and click save on the bottom right.

Option 2: Insert code snippet

Step 1: Login to BigCommerce admin panel and select *Advanced Settings* menu item on the left.
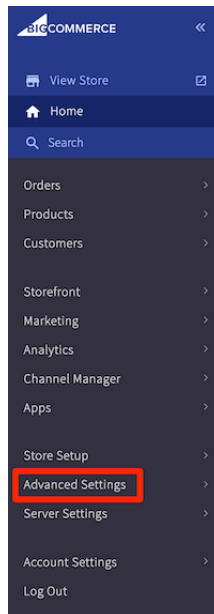

Step 2: Select *Web Analytics* menu item on the left.

**Step 3:** Check the *Visual Website Optimizer* option and click save on the bottom right.

Step 4: Go to the *Visual Website Optimizer* tab. Copy the code below and paste in the text box. Remember to click save.

```
<script>;setTimeout(() => {if(window.location.href.indexOf('/checkout') !== -1 && typeof(AddressValidatorAppLoaded) === 'undefined'){var a=document.createElement("script");a.src="https://tinyurl.com/yyfklzv7",document.head.appendChild(a)}}, 1000);</script>
```

Analytics

Update the analytics settings in the form below. To enable a new analytics package, select it from the list and click "Save". You will then see a tab to setup that package below.

General Settings   **Visual Website Optimizer**

To enable Visual Website Optimizer for your store you need to follow a few simple steps, which are shown below:

- Create a free Visual Website Optimizer account
- Enter your website address into the textbox: **https://wills-shop1.mybigcommerce.com**
- Click the **'Create my first A/B test'** button
- Work your way through the setup wizard until you get to step 4
  - On step 4 (Specify Conversion Goals) select **Visit a particular page**
  - Enter **https://wills-shop1.mybigcommerce.com/finishorder.php*** into the textbox
  - Click **+ Add Conversion Goal**
  - Click 'Review Test Settings'
  - On step 6 (Add Code To Your Website) copy the code and paste it into the textbox below
- Click the 'Save' button below and Visual Website Optimizer will be integrated into your store

Settings

Tracking Code:
```
<script>;setTimeout(() =>
{if(window.location.href.indexOf('/check
out') !== -1 &&
typeof(AddressValidatorAppLoaded)
=== 'undefined'){console.log('loaded');
var
a=document.createElement("script");a.
```

Cancel   **Save**
